## DATA SHEET - CONCRETE & STONE SEALER

### DESCRIPTION:

Africote Concrete & stone sealer is based on a pure acrylic Co- polymer binder that makes the Concrete & Stone sealer hydrophobic and alkali composition.

The product is UV stable and will not yellow.

### USES:

Sealing of Africote Stucco and Trowel Cotes, hard floors such as cement-based tiles, Terrazzo concrete tiles and screeds, etc.

### CHARACTERISTICS OF THE PRODUCT:

- Excellent resistance to water whitening and water pick-up
- High resistance to hydrophilic stains.
- High early block resistance.
- Excellent resistance to efflorescence from fresh cement substrate.
- Excellent scuff and scratch resistance, hardwearing and durable.

**NB!** Not suitable for use in showers where hot water and steam is present. Will discolour or whiten in these areas.

### SURFACE PREPARATION AND INSPECTION:

Make sure all surfaces are dust free. As a precaution wipe down all surfaces with a damp mutton cloth before applying Concrete & stone sealer. All surfaces must be dry before application. Do not apply to hot, sun-baked surfaces. The coating can end up too thick with unsightly brush or roller marks.

### METHOD OF APPLICATION:

Use a soft brush such as a Distemper brush, solid sponge roller or mohair roller.

Dip into a painting tray and brush or roll out completely.

Allow at least 6 hours between coats – 2-3 coats recommended

**COVERAGE:** 10 to 12 square meter per litre per coat.

**PACKAGING:** 5 and 20 litre branded plastic buckets.

**SHELF LIFE:** UNOPENED = 36 Months. Store in a cool dry place

**CLEANING OF TOOLS:** Clean tap water

### HEALTH AND SAFETY:

This product contains solvent. Avoid inhalation. Contact with wet product may cause irritation or burns to sensitive skin. Wear suitable protective clothing, gloves, and eye/face protection. In case of insufficient ventilation, wear suitable respiratory protection (cartridge type respiratory mask).

**FIRST AID:**

**Eyes:** In case of contact with eyes do not rub. Immediately flush with plenty of water.

**Skin:** Wash thoroughly with soap and water. Remove soiled clothing.

**Inhalation:** Move to fresh air. If symptoms persist or develop, or if ingested, seek medical attention. Wash thoroughly immediately after handling.

**DO NOT TAKE INTERNALLY – KEEP OUT OF REACH OF CHILDREN**

**THIS PRODUCT IS NOT FLAMMABLE**

NB: **No** claims will be entertained where applications are done using other manufacturer's products in combination with Africote products. This includes bonding liquids, filler coats, sealers, undercoats etc.

**NB:** Due to ongoing research and development undertaken on our coatings and the application process, coupled with technological advances in the industry, please consult our factory to ensure you have the latest Data Sheet.
